Description

In addition, the terminal module contains 2x4 terminal boards connected in parallel to provide the possibility of interconnecting independent branches. It occupies one position in the system.

Technical specifications

Power

from the control panel BUS 12 V (9 ... 15 V)

Current consumption (in standby mode)

5 mA

Current consumption (for cable choice)

5 mA + connected detectors

Dimensions

76 x 54 x 30 mm

Classification

according to EN 50131-1, EN 50131-3 Grade II

Operational environment according to EN 50131-1

II. Indoor general

Operational temperature range

-10 °C to + 40 °C

Comply with

EN 50130-4, EN 55022
